Designed for progress

The Blackwood Promise

Blackwood Cabinets exists to make buying cabinets effortless. We combine industry expertise, premium materials, and bold innovation to create a distribution experience that's consistent, convenient, and refreshingly predictable. We're reshaping the standard for what it means to be a customer-focused cabinet distributor - driven by reliability, inspired by craftsmanship, and fueled by our belief that better service builds better partnerships. We're not corporate - we're committed.

Rift Oak Collection

As a premium RTA cabinet line crafted from American-sourced rift-sawn white oak, this designer collection features a consistent linear grain with a refined natural texture. Finished in a sophisticated four-color palette, this series delivers a warm, modern style designed to last.

BOURBON

IVORY

OBSIDIAN

CANYON

Bourbon Oak

The Bourbon Oak line features rich, warm brown tones complemented by the clean, straight grain of rift-sawn white oak. Its linear pattern introduces dimension and structure, creating a composed, design-led presence that feels both current and enduring. Natural texture and balanced tonal variation make it an exceptionally adaptable choice across a range of spaces.

Ivory Oak

Ivory Oak pairs a soft, light-toned finish with the clean, linear grain of rift-sawn white oak. Subtle texture and creamy warmth lend an airy, composed presence, while proven durability and controlled grain consistency make it equally suited for both current design trends and long-term, traditional applications.

Obsidian Oak

The Obsidian Oak door makes a confident statement through its deep, dark finish and clean, linear grain of rift-sawn white oak. Refined texture introduces dimension without overwhelming the space, resulting in a sleek, tailored presence well suited to contemporary interiors. Engineered for long-term stability and uniformity, Obsidian Oak delivers a premium aesthetic that performs seamlessly across both residential and commercial environments.

Canyon Oak

Canyon Oak blends natural tones with a linear grain, offering a modern yet traditional cabinetry finish. By combining the warm, earthy colors with the straight lines of rift-sawn white oak, it is able to deliver a more relaxed modern aesthetic. The definition of surface adds depth without distraction, making it ideal for contemporary kitchens and even large-scale projects that require resilience, dependability, and elevated design.

Shaker Edge Collection

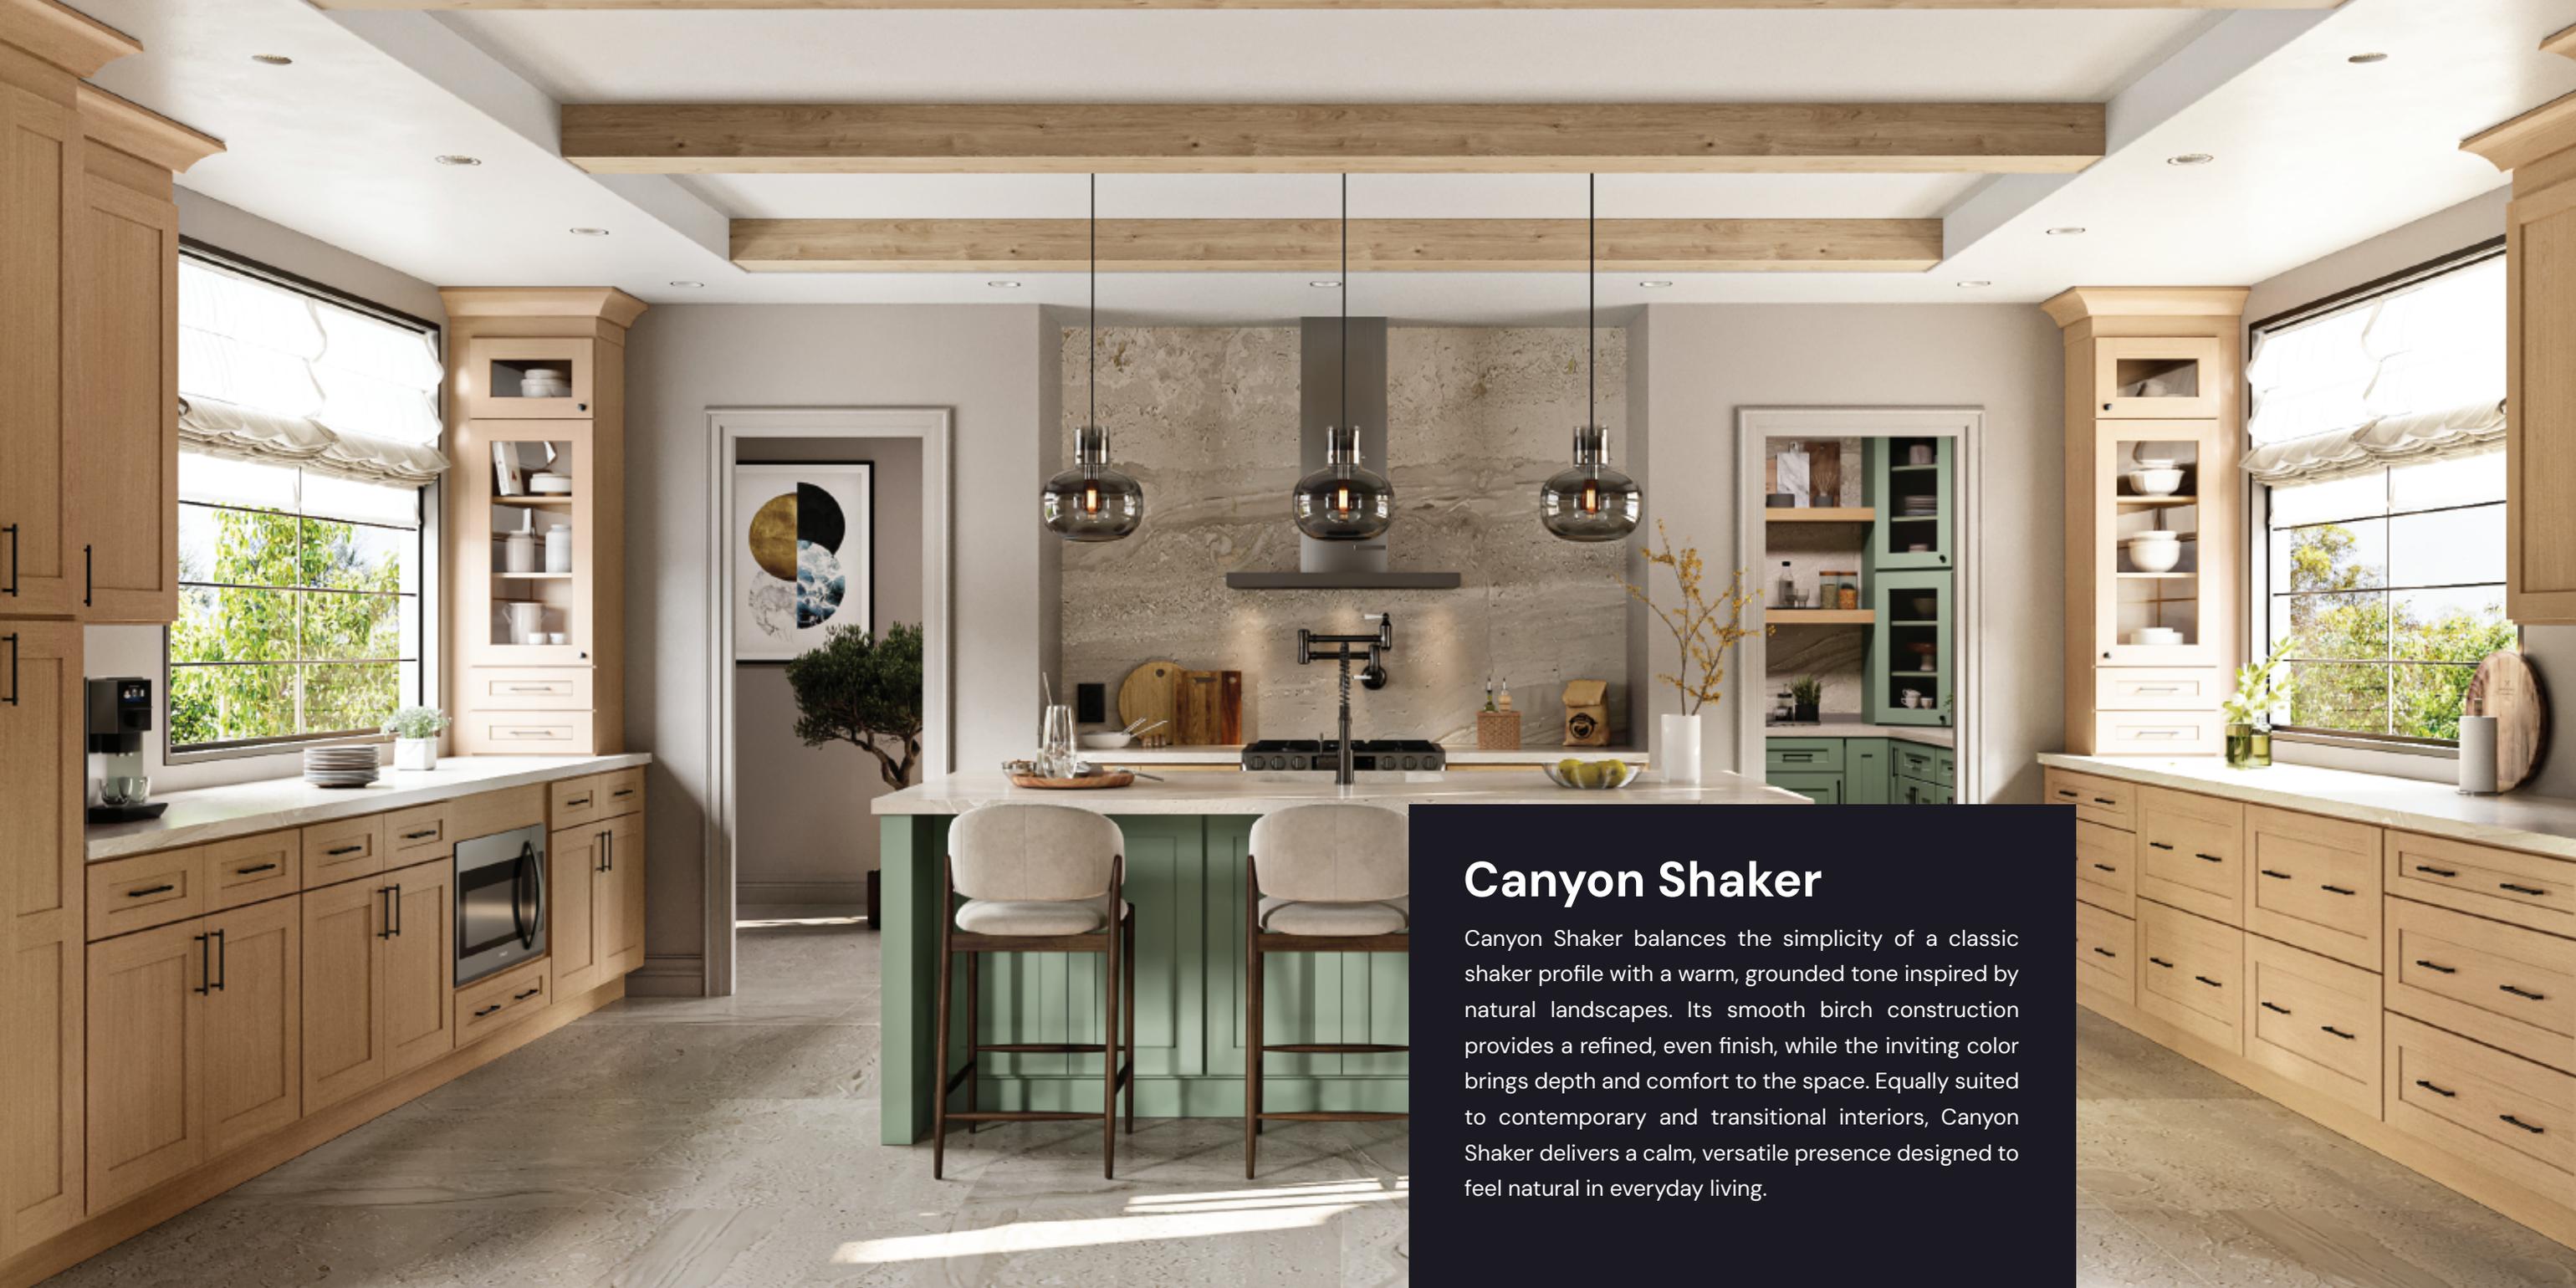

Blending a refined style with lasting durability, our Shaker Edge Collection creates a premium look made to stand the test of time in six beautiful high-quality paints and stains. Trend-forward yet timeless, Blackwood Cabinets proves style, quality, and value truly live together in any space.

White Shaker

The White Shaker line delivers a clean, classic look defined by its timeless shaker profile. With a crisp white finish that brightens any space, it provides a versatile foundation for both modern and transitional designs. Valued for its reliability and adaptability, White Shaker remains a trusted choice for residential and large-scale B2B cabinetry projects, offering lasting style and dependable performance.

Canyon Shaker

Canyon Shaker balances the simplicity of a classic shaker profile with a warm, grounded tone inspired by natural landscapes. Its smooth birch construction provides a refined, even finish, while the inviting color brings depth and comfort to the space. Equally suited to contemporary and transitional interiors, Canyon Shaker delivers a calm, versatile presence designed to feel natural in everyday living.

Antique Shaker

The Antique Shaker door reimagines the familiar shaker profile through a softly toned, creamy off-white finish that brings warmth and quiet character to a space. Meticulously painted for a smooth, uniform surface, it offers a refined interpretation of classic and transitional design. Built with durability in mind and finished with care, Antique Shaker delivers a visually rich presence that holds up to everyday use—making it a dependable, value-driven for all spaces.

Hazel Shaker

Hazel Shaker brings a sense of calm to the structured simplicity of the shaker door, pairing clean lines with a mid-tone sage green drawn from natural, botanical hues. The smooth painted finish softens the profile, allowing the color to feel composed rather than bold, refined rather than trendy. Adaptable and quietly distinctive, Hazel Shaker layers effortlessly with a wide range of materials and finishes, delivering a welcoming look that remains relevant and thoughtfully designed over time.

Bourbon Shaker

The Bourbon Shaker line pairs the familiar shaker profile with a deep, bourbon-brown finish that brings richness and quiet sophistication to any space. The smooth birch surface allows the color to develop evenly, highlighting the door's clean proportions while adding warmth and depth. Rooted in traditional design yet comfortably at home in modern settings, Bourbon Shaker delivers a composed, durable presence that can anchor a project or serve as a refined accent across an array of applications.

Grey Shaker

Grey Shaker introduces a calm, understated tone to the classic shaker form, finished in a soft grey that can bring balance and clarity to a project. The smooth painted surface allows the color to read clean and even, giving the door a composed, contemporary presence without feeling stark. Quietly adaptable and effortlessly compatible with a wide range of materials and finishes, Grey Shaker offers designers, builders, and dealers a dependable foundation for both residential interiors and commercial spaces.
